

SMK Methodist (ACS) Sitiawan Festival & Science Carnival 2017

The carnival organized on 28 April 2017, aims at cultivating interest for learning based on STEM (now re-strategized as STEAM) among the students in the school as well as to encourage them towards a choice in STEAM-related courses in their tertiary education.

On 08 October 2016, DKLS contributed a modest sum of RM100,000.00 towards the nation building initiative in STEM through the Board of Governors of the School.
